

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Preface.

HE Registers of the Parish Church of All Saints, Orpington, that are here transcribed are contained in two books.

The first Register Book consists of sixty sheets of parchment, $5\frac{3}{4}$ inches wide by 14 inches long, with remains of a cover; it dates from 1597, but contains entries from 1560, copied from some MS. not now existent.

The Christenings, Marriages and Burials are at first entered together, a C, M or B in the margin serving as a sort of guide. On the appointment of William Wood to the living, in 1596, the entries were separated.

This book contains:

Baptisms 1560—1671
Burials 1560—1678
Marriages 1560—1671

which are printed as they appear in the original, unnecessary repetitions being, however, omitted.

The second Register is well bound in pigskin, and contains 110 pages of parchment, $9\frac{1}{2}$ in. by $14\frac{1}{4}$ in. Four pages are missing.

In this book are:

Baptisms 1671—1812
Burials 1678—1812
Marriages 1671—1754

All the entries to 1754 have been transcribed and are here printed.

MEM.—4 Pages between 20 & 25 were wanting in this Register at the decease of Mr. Townley in 1847. But it may be questioned whether there were any entries of Baptisms upon them. See the memorandum made by Mr. Monkton in 1620. According to it the Marriages entered on page 25 should have been placed at page 66. The book was sewed up afresh in 1848.—GEORGE FRAN. DAWSON, Vicar.
